Bachelor of Technology, D. Y. Patil International University
Computer Science and Engineering

SKILLS

Technical Skills	Javascript, Typescript, Python, HTML, CSS, NodeJs, ReactJs
Other Skills	Graphics Design, Illustration, Figma, Adobe Illustrator

EXPERIENCE

Front-End Developer (& Co-founder) BrewTime India.	Aug 2024 - present <i>Remote</i>
--	-------------------------------------

- Developed a React Native app integrated with Supabase for user-generated coffee recipes and seamless real-time data handling.
- Designed and maintaining an e-commerce website using Wix to sell coffee accessories, ensuring a visually appealing and user-friendly interface.

Front-End Intern Wajooba LLC.	Feb 2023 - Aug 2023 <i>Remote, Pune.</i>
---	---

- Developed and tested Solidity smart contracts, ensuring functionality through comprehensive debugging; built a responsive front-end interface using modern web technologies.
- Designed wireframes and high-fidelity prototypes for a seamless user experience, and documented the project to support future development.

Intern In-house Internship DYPIU	Jun 2021 - Aug 2021 <i>Remote, Pune</i>
--	--

- Automated home appliances and lighting systems using IoT technology for smart home solutions.
- Integrated ESP32 microprocessor with various hardware components to achieve automation.

PROJECTS

BrewTime

- Developed a React Native app with Supabase, featuring user-generated recipes, real-time updates, and a dynamic, intuitive interface.

Open-EXC (DApp Token Exchange)

- Developed a full-featured cryptocurrency exchange using Hardhat and Node.js, deployed on the Polygon testnet with real-time token prices, candlestick charts, and advanced trading tools.

T-Portals NFT Project

- Created a unique AI-generated NFT collection, avoiding traditional layer-based formations commonly used on platforms like OpenSea.

CERTIFICATIONS

- The Complete 2024 Web Development Bootcamp
- Crash course on python.
- Blockchain Basics.
- Smart India Hackathon 2022.
